

Huddle Space Promotion

A single solution for Audio, Video and Conferencing.

Bring teams together quickly and simply wherever they are.

The success of any organization depends on how well its people can collaborate and make critical decisions quickly. Yet the process of assembling people can be counter-intuitive to the end goal. With the Cisco Meeting Experience, we help you put the focus back on outcomes, not the process:

Simple 'one click' meetings

We've taken the complexity out of the meeting process. One location, one button, one experience. Schedule ahead or invite people for spontaneous discussions.

Amazing experience from any device

Meetings that fit your work style with a consistent user experience across mobile, desktop, and video systems.

A single meetings solution for your business

One solution to manage, one intuitive interface for training, one experience for increased adoption.

Create your ideal huddle space

Cisco's [huddle space portfolio](#) helps you get more from your small meeting spaces. We have a full collaboration device portfolio, priced within reach of every budget, designed to deliver one consistent, simple and reliable experience from the huddle space to boardroom and beyond.

Purchase this full collaboration device portfolio:

- Huddle with lifelike video using [Cisco Webex Room Kit Mini](#) for your meeting rooms. A true huddle space video meeting solution with a 120-degree field of view that brings the intelligence of larger rooms into the smallest spaces with enterprise scale.
- [Cisco Webex Board 55](#): Co-create with your team on an all-in-one digital whiteboard with wireless sharing and video capabilities for team collaboration
- [Webex Share](#): Easily share an application or your whole screen on an HD display without dongles or wires in local or virtual meetings.

Cisco Webex Room Kit Mini and Cisco Webex Board 55 allows you to connect to the Webex Cloud for a seamless, easy meeting experience with monthly webex device subscription. To be entitled for this attractive offer, purchase a bundle of room endpoint with SaaS subscription.
